

COMPANY PROFILE

Oneida Total Integrated Enterprises (OTIE) is a tribally-owned, small disadvantaged business, wholly-owned by the Oneida ESC Group, which is owned by the Oneida Nation of Wisconsin.

OTIE offers technical skills and a mature business infrastructure developed through 27 years of experience. OTIE has 15 nationwide offices delivering environmental, remediation, construction, engineering, munitions response, and emergency response services. We specialize in civil, transportation, and municipal engineering (design and construction management), surveying,

and integrated environmental services.

OTIE applies the knowledge and experience of 300 employees to deliver solutions that provide sustainable benefits. We integrate construction managers and technicians, engineers, and scientists for dedicated, cooperative, and businesslike delivery of services to

cultivate community consensus and enhance our customers' missions.

OTIE is experienced and knowledgeable in federal, state, and local regulations. From infrastructure engineering to construction and demolition services, OTIE engineers, scientists, and construction staff deliver innovative and cost-effective solutions to drive your project from conception through successful completion.

Our mission is to preserve, restore, and enhance the natural and constructed environment for future generations through successful project delivery for our customers.

John Thousand, PLS, PE, LEED AP

Professional Land Surveyor and Project Engineer

Mr. Thousand is a civil engineer and land surveyor with 18 years of experience in commercial and residential land development. He is adept at AutoCAD, MicroStation, Autodesk Land Desktop, Autodesk Civil 3D, GPS, GIS, the FARO laser scanner, Hyraflow, Recarga, and WinSLAMM.

Bruce Bowden, PLS

Survey Project Manager

Mr. Bowden has over 38 years of land surveying, soil morphology, and septic system design experience. As Survey Project Manager he assesses client needs, prepares proposals, and manages survey crew logistics, scheduling, and invoicing.

James Baker, PLS

Professional Land Surveyor

Mr. Baker has 16 years of land surveying experience. His expertise includes property and construction surveys, subdivision plats, section corner re-establishment, and flood plain and topo surveys.
